CONTENTS

PSYCHOLOGICAL ASPECTS OF INTERPERSONAL RELATIONSHIP IN SPORT

From teacher to friend: The evolving nature of the coach-athlete relationship 1
Roberta Antonini Philippe, Sam S. Sagar, Sophie Huguet, Yvan Paquet, and *Sophia Jowett*

A case study of the emotional aspects of the coach-athlete relationship in tennis. 24
Sophie Huguet, and *Roberta Antonini Philippe*

Empathic accuracy, shared cognitive focus, and the assumptions of similarity made by coaches and athletes. 40
Ross Lorimer, and *Sophia Jowett*

Linking maintenance strategies to the quality of coach-athlete relationships 55
Daniel J.A. Rhind, and *Sophia Jowett*

Influence of desirability for control on instructional interactions and intrinsic motivation in a sport peer tutoring setting. 69
Pascal Legrain, Yvan Paquet, Fabienne D'Arripe-Longueville, and *Roberta Antonini Philippe*

An examination of the interpersonal relationships of the coach-athlete-peer triangle. 84
Anne-Line Balduck, and *Sophia Jowett*

Reflected appraisals of coaches, parents and teammates: A key component of athletes' self?. 97
David Trouilloud, and *Charlotte Amiel*

Perceived coach-athlete and peer relationships of young athletes and self-determined motivation for sport. 115
Allison Riley, and *Alan L. Smith*

N. 2 (March-April 2011)

Original Contributions

The influence of asynchronous motivational music on a supramaximal exercise bout. 135
Jasmine C. Hutchinson, Todd Sherman, Lyndsey Davis, Dusty Cawthon, Nathan B. Reeder, and *Gershon Tenebaum*

Causal influences of expected running lenght on ratings of perceived exertion and estimation time limit scales. 149
Jerémy B.J. Coquart, Adam Stevenson, and *Murielle Garcin*

Towards a dispositional version of the Coping Inventory for Competitive Sport 167
Jennifer R. Hurst, Amanda Thompson, Amanda J. Visek, Brandyn Fisher, and *Patrick Gaudreau*

Longitudinal analyses of stressors perceived control, coping and coping effectiveness among early and middle adolescent soccer players. . . . 186
Clive W. Reeves, Adam R. Nicholls, and *Jim McKenna*

Factorial and predictive validity of the Belgian (Dutch) Athlete version of the Coach-Athlete Relationship Questionnaire (CART-Q). 204
Anne-Line Balduck, Sophie Jowett, and *Marc Buelens*

N. 3 (May-June 2011)

Original Contributions

Understanding students' motivation in middle school physical education examining the mediating role of self-efficacy. 199
Zan Gao, Amelia M. Lee, Maria Kosma, and Melinda A. Solmon

Motivational climate, need satisfaction, regulation of motivation and subjective vitality. A study of young soccer players. 216
Yngvar Ommundsen, Pierre-Nicolas Lemyre, Frank Abrahamsen and *Glyn C. Roberts*

The influence of sport-specific experiences during the psychological refractory period in the Go/Nogo double stimulation task. 243
Hiroki Nakamoto and *Shiro Mori*

When is manual guidance effective for the acquisition of complex skills in Gymnastics?. 255
Thomas Heinen, Alexandra Pizzera and *Jorge Cottyn*

Examining the impact of physical appearance on impressions of coaching competence. 277
Richard C. Thelwell, Neil J.W. Weston, Jain A. Greenless, Jenny L. Page and *Andrew J. Manley*

Gaze behaviour and shooting strategies in football penalty kicks: implications of a "keeper-dependent" approach. 293
Greg Wood and *Mark R. Wilson*

Intermittent visual information affects motor strategies during locomotor pointing. 313
Adrian Popescu, Keith Runnalls and *Brian K.V. Maraj*

N. 4 (July-August 2011)

Original Contributions

Assessing motivational climates when training for Sport. 321
Todd A. Gilson, Jeong-Dae Lee, Martha E. Ewing

Media exposure and adaptive coping in elite football. 339
Elsa Kristiansen and Glyn C. Roberts

Antecedents, accuracy and consequences of parents' behaviours. A cross sectional study based on Eccles Expectancy Value model. 368
Julie C.S. Boiché, Emma Guillet, Julien E. Bois, and Philippe G. Sarrazin

Implicit but not explicit aggressiveness predicts performance outcome in basketball players. 390
Thomas Teubel, Jens B. Asendorpf, Rainer Banse, and Konrad Schnabel

Physical activity, perceptual-motor performance, and academic learning in 9-to-16-years-old school children. 401
José Morales, Luís-Millán González, Myriam Guerra, Carles Virgili, Viswanath Unnithan

N. 5 (September-October 2011)

Original Contributions

Cross-cultural validation of a three-dimensional measurement model of performance anxiety in the context of Chinese sports. 417
Wen-Nuan Kara Cheng, Lew Hardy, and David Markland

A longitudinal study of masters swimmers' commitment. 436
Bradley W. Young, Matthew E. Piamonte, J. Robert Grove, and Nikola Medic

Effects of increased physical activity and motor training on motor skills and self-esteem. An intervention study in school years 1 through 9. . . . 461
Ingegerd Ericsson, and Magnus K. Karlsson

Immediate improvements in emotion and stress following participation in Aerobics, Circuit Training and Tai Chi. 480
Judy J. Frith, John H. Kerr, and George V. Wilson

The association between intra-individual and extra-individual determinants, and lifetime sports behavior on leisure time physical activity. A cross-sectional study with older adults. 493
Martina Kanning, and Wolfgang Schlicht

N. 6 (November-December 2011)

Original Contributions

Mental toughness, Coping Self-Efficacy, and Coping effectiveness among athletes. 513
Adam R. Nicholls, Andrew R. Levy, C.J. Polman, and Lee Crust

Spatial ability and motor performance: assessing mental rotation processes in elite and novice athletes. 525
David Moreau, Annie Mansy-Dannay, Jérôme Clerc, and Alain Guerrien

Sport-related correlates of disordered eating. A comparison between aesthetic and ballgame sports. 548
Eva M. Krentz, and Petra Warschburg

Londitudinal analysis of sport commitment types: Does injury play a role? . 565
Windee M. Weiss

Stage and specific prediction of physical activity in orthopaedic patients after rehabilitation treatment. 586
Jeanette Jackson, Sonia Lippke and Colin D. Gray
